PROFILE SUMMARY

B.Tech IT student with strong fundamentals in Programming (C, Java), Data Structures, Operating Systems, and Analytics. Experienced in building data-driven dashboards, applications, and system-oriented academic projects. Highly motivated to work on storage systems, large-scale data processing, and performance-focused engineering at Pure Storage.

EDUCATION

KONGU ENGINEERING COLLEGE, PERUNDRAI.
CGPA : 8.07
2027

SMHSS, THURAIYUR
HSC : 93%
2022

AGMHSS, ERAGUDI
SSLC : 95%
2020

TECH SKILLS

- Data Analytics : Power BI
- Frontend : HTML, CSS, JS
- Language : Java (Basics), C
- Version Control : GitHub
- Database : MongoDB, SQL
- UI/UX : Figma
- MS Office
- MS Excel

AREA OF INTEREST

- DBMS

SOFT SKILLS

- Communication
- Presentation
- Team Management
- Leadership

PROJECTS DONE

WEB DEVELOPMENT

- **The Flora** : Built The Flora website with a focus on responsive design and interactive user experience.
[GIT](https://github.com/Janishaa1407/THE-FLORA)
- **All-in-One Calculator** : Developed an All-in-One Calculator web project integrating multiple functionalities in a single platform.
[GIT](https://github.com/Janishaa1407/ALL-IN-ONE-CALC)
- **Solar System** : Engineered a 3D Solar System model with optimized rendering, efficient object handling, and interactive camera controls using Three.js.
[GIT](https://github.com/Janishaa1407/Solar)

DATA ANALYTICS (POWER BI)

- Created a Data Science Job Salaries Dashboard to analyze trends and salary distributions across roles and regions.
[GIT](https://github.com/Janishaa1407/DSJS)
- Built a Sales Dashboard to track KPIs, revenue growth, and performance insights.
[GIT](https://github.com/Janishaa1407/Sales-Dashboard---PowerBI)
- Developed a Data Integration & Visualization Dashboard to combine datasets and present meaningful visual insights.
[GIT](https://github.com/Janishaa1407/Data-Integration-and-Visualization---PowerBI)
- Currently working on Twitter Analytics Dashboard to analyze engagement metrics, trends, and audience insights.

UI/UX DESIGN (FIGMA)

Designed the Bite Buddy app prototype in Figma, emphasizing modern design, usability, and seamless navigation.

[FIGMA](https://www.figma.com/community/plugin/1119623265256000093)

PYTHON - SORTING VISUALIZER

[GIT](https://github.com/Janishaa1407/Python_Sorting)

PAPERS PRESENTED

Presented a paper on “Blockchain Technology” at IMPULZI’24 of IEEE in Kongu Engineering College, Perundurai.

ACHIEVEMENTS

Award with Best Student Recognition - Premier Institution Award of IT (2024-2025) at Kongu Engineering College.
